The Skiing – the best, most reliable ski conditions are here!

Unmatched accessibility, deep powder, exciting terrain, a pedestrian slopeside village, & first-class services combine to make Snowbird an unparalleled Utah destination. [Snowbird](#) averages approximately 500 inches of low-density “dry” Utah powder annually, and [Alta](#) 700 inches, because of geography & a phenomenon called “Lake Effect.” A cool, skier moving tunnel connects them. Little Cottonwood Canyon powder is known worldwide!

[Sign up online](#) and mail the trip leader your \$500 initial deposit, payable to the Pentagon Ski Club. \$500 interim payments due Oct 10 & Nov 14; final \$425 due Jan 16.
